FABRIC CUTTING SUGGESTIONS

Most cutting will be done with fabric folded in half. The following is a guide for the order to cut the pieces from each fabric for best use of the yardage.

WAVY EDGE GUIDES

Make freezer paper waves using this template. Iron to the border's edge to hold the fabric secure while marking. This is also adjustable. If you need to, space or condense the waves to fit your quilt. Freezer paper will usually press to the fabric at least twice.
